

Quality Improvement Impact

AIM:

To reduce the odors
from Countryside
Landfill.

Results:

Decrease in odor complaints
over the span of 4 years by

43%!

This is the result of:

Daily tracking
and reporting
of odor
complaints

Assessing
the usage of
landfill gas
by the local
electric plant

Assessing
how weather
and seasonal
trends affect
odors

Corrective
actions
implemented
by the landfill

Impact:

Increased quality of life.
